Minority Affairs

MEMORANDUM

TO: Arnold McKinney

January 3, 1977

cc: President Robison
D. Ginevan
C. Rikert, Jr.
Dean Spencer
G. Whitney
Dean Wonnacott

FROM: Paul Cubeta

SUBJECT: Adirondack House

Dear Arnie:

Thank you for advising me of the status of plans for the use of Adirondack House. Although I am Chairman of the Space Committee, your memorandum was the first information I had on commitments made by BSU and the College. It is surely not my intention to change them, but it is my responsibility to see that institutional space is properly and fully utilized. Now that all of the Old Chaps have been made aware of those arrangements, perhaps we can now proceed to implement them.

I am particularly pleased that one space is to be used for lecture classes of fifty to seventy-five. In exchange for that information, I'll do my best to help carry out the rest of the agreement.

I'm glad that you share my uncertainty as to who determines priorities on campus. Conversations with two Presidents, two Vice Presidents, one Treasurer, and six Deans over the years have revealed at times similar and inevitable uncertainty. Maybe the College determines, but it's not talking.

Sincerely,

Paul

Paul M. Cubeta
Vice President
